no need. As the phone has built-in Internet function
Only the Home page can be displayed, the website is too big to be downloaded, and the online games cannot be downloaded.
Although the website cannot be fully displayed, 5 mobile games can be downloaded to the N95 phone by using phone browser and installed automatically. They all can be played successfully. As the games are small (around 75K), so downloading is quite fast.
Difficult to play online games as they cannot be downloaded to the phone easily.
Games cannot be downloaded, too big. However, small quiz can be played.
The file is too big for the phone.
